Student Mentor System (SMS)”

Title of the Practice: ‘Student Mentor System (SMS)”

Goal/Objectives of the Practice:

- To monitor the holistic development of each student.
- To regularize the student’s class attendance
- To redress the problems of the students
- To involve the parents in the activity of progression of their wards.

The Context

The students in their tender age will be under the grip of apprehensions due to lack of awareness regarding day to day activities, particularly when they are away from their parents are very much in need of a mentor in the form of their Class teacher who redresses their grievances and keeps them happy and comfortable.

The Practice

- Each lecturer (Mentor) will be in-charge of about thirty students.
- Mentor maintains a cumulative record of students allotted to him/her.
- Mentor periodically calls for a meeting with students and their parents, so as to assess the performance and well being of the students.
- These meetings facilitate student – mentor interaction.
- Mentor immediately attends to problems of the students and also motivates them to face challenges.
- Mentor educates the students regarding good manners in life and also about health and hygiene.

Evidence of Success

- Several students got counseling from the Mentor for their academic and personal problems.
- Mentor is able to assess the family background, financial position, mental calibre of each student.
- Mentor has become a communication channel between students and their parents.

Problems Encountered and Resources Required

- Most of the parents are reluctant to come to college because most of them being illiterates possess self imposed inhibitions on conversing with teachers.
- Mentors should first try to lessen this inhibition of parents. They should never blame parents for the mistakes committed by the student.
- Most of the students are reluctant to share their grievances and problems with their mentor. They are afraid that they will receive a serious scolding from the mentor.

Title of the Practice: ICT Based Academic Environment

Goal/ Objective:

The objective in creating ICT Based Academic Environment on campus is to enable the student stakeholders in experiencing 21st Century Learning Culture and to make them aware in accessing the open course ware available online.

The context:

The new advances in Information and Communication technology had a significant effect on the way people live, work, and play worldwide. These new and emerging technologies challenge the traditional process of teaching and learning also. In recent years there has been a groundswell of interest in how computers and the Internet tripled with open Educational Resources can best be harnessed to improve the efficiency and effectiveness of education at all levels, which leads to more learner-centered education system.

The Practice/Modus operandi:

The required infrastructure is developed and the teaching professionals are motivated to acquire ICT skills and information literacy, which are suitable to use them in imparting education.

Evidence of success:

- A noticeable change in students response in class rooms
- The students got rid of their inhibitions, shyness and developed new skills of ICT
- Use of ICT adequately resulting extremely effective in students' learning and achievement.
- Increase in the number of e- literates and information literates among the student community.

Problems encountered and Resources required:

No Major problems encountered in the practice. More number of computers coupled with connectivity is required. The technical supporting staff is also needed
