The institution prepares and deploys several strategic plans for the overall gradual development of the college. One of such strategies is regarding the improvement of admissions to the college. The admissions committees for campaigning are constituted with a convener and 2 members for specific intermediate colleges nearby Yemmiganur. Each committee is assigned one or more intermediate colleges. The committees visit colleges assigned to them and create

awareness among the students of intermediate colleges about the strengths and opportunities and values that are being provided in our college. Students of the college are also encouraged to spread the goodwill of the college to II-year intermediate students of various colleges. The faculty collects data from intermediate students and be in touch with the students on one to one basis, taking special care about their admission process and giving them assurance of the quality of education. Through various promotional channels, the advertisement was given about admissions. The admissions of the college over the last three years shows the success of this strategy.

**7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system**

## Hazardous chemicals and radioactive waste management

Waste management is one of the prime concerns of the institution. This institution has a permanent mechanism for eliminating or minimizing the wastage on the campus, be it of time, power, paper or water. However, where wastage is inevitable and unavoidable, it is managed quite effectively. It is either deposited safely or recycled successfully for the benefit of nature and community.

### Solid Waste Management:

The main Solid wastes on the campus include wastepaper, litter and disposables. The biodegradable waste is shifted to the Vermicompost and Compost pit and the manure is used for development of Botanical gardens and plantations in the campus. The non-degradable wastes are separated into recyclable and disposable ones.

### Liquid Waste Management:

The waste water generated by RO Plant is being channelized to plantations. The college is situated in a low lying area with elevated roads with a small hill habitat. To absorb the rain water, there constructed two rainwater harvesting pits at pivotal points in the college. This water helps to raise the level of ground water table for the bore-wells in the college and surrounding areas as well.

### E-waste Management:

The electronic waste is set apart for reuse, resale, recycling or disposal.

The IQAC prepares Institutional Action Plan considering Academic Calendar issued by Rayalaseema University incorporating advancements in the educational field to make the students fit into the modern world. ICT enabled teaching i.e, online, digital and virtual classes, finishing school activities, talent tests, and need-based certificate courses are such advancements incorporated in the action plan. Takes enough care and provides support for the execution of the

action plan without much deviation. IQAC committee visits departments, reviews, monitors their activities, obtains feedback from the students and staff, and then suggests improvements. To monitor the activities of the departments IQAC follows partial e-governance for sharing information and giving feedback on the quality of activities conducted. Organizes staff council meetings to review, and welcome suggestions from the stakeholders to improve the quality of teaching-learning. As a result of the initiatives taken up by the IQAC rate of usage of ICT-enabled teaching increased, 2 certificate courses were conducted, and finishing school activities like talent tests and one district-level online essay writing competition, poster presentation, and quiz were conducted. IQAC monitored the implementation of Community Service Project, Industry Connect (Short Internship) and Continuous Internal Assessment (CIA) which are the components of NEP 2020.

IQAC, under the guidance of CCE, AP, RJDCE, the Principal, Academic Advisors, District Resource Centre, Rayalaseema University, and the stake holders strives for enhancing the quality of education.

**7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management**

**Waste management is one of the prime concerns of the institution. This institution has a permanent mechanism for eliminating or minimizing the wastage on the campus, be it of time, power, paper or water. However, where wastage is inevitable and unavoidable, it is managed quite effectively. It is either deposited safely or recycled successfully for the benefit of nature and community.**

**Solid Waste Management:**

**The main Solid wastes on the campus include wastepaper, litter and disposables. The biodegradable waste is shifted to the Vermicompost and Compost pit and the manure is used for development of Botanical gardens and plantations in the campus. The non-degradable wastes are separated into recyclable and disposable ones.**

**Liquid Waste Management:**

The waste water generated by RO Plant is being channelized to plantations. The college is situated in a low lying area with elevated roads with a small hill habitat. To absorb the rain water, there constructed two rainwater harvesting pits at pivotal points in the college. This water helps to raise the level of ground water table for the bore-wells in the college and surrounding areas as well.

**E-waste Management:**

The electronic waste is set apart for reuse, resale, recycling or disposal.
