## Department of Computer Science

Virtual field trips are a great way of engaging students in learning experiences in the real world. They help students find the relevance of what they learn. In addition, such trips improve their understanding and tap into new ways of learning while keeping students engaged and motivated.

The curriculum focuses on engaging students in practical experience to observe the implementation of what they are taught in college. Students have gained practical knowledge in Software Development and they got opportunity to interact with the various employees in the organization like HR, Team Leader, Developer etc., Being students of Computer Science & Applications, this visit helped them in better understanding of various concepts in computer field like Image Processing, Data Security, Video Annotations, e-Commerce and Agriculture.
